

Declaration of compliance for materials and articles intended to come into contact with food

The Manufacturer or his authorized representative who is established in the community:

AVAMOPLAST NV
KAARDERSLAAN 18
BE - 9160 LOKEREN

declares that the following products:

All articles made in APET clear

are produced in compliance with the European legislation, in particular with Regulation (EC) **No. 1935/2004** regarding plastic materials and articles intended to come into contact with food and taking into account the requirements of Regulation (EC) **No 2023/2006** related to good manufacturing practice for materials and articles intended to come into contact with foodstuffs.

The plastic film also complies with the relevant requirements laid down in Regulation **No. 282/2008 EC**, concerning recycled plastic materials intended to come into contact with food.

Our APET production is also in compliance with EU Regulation **No 10/2011** regarding plastic materials and articles intended to come into contact with food.

The monomers and additives used to produce this products are listed in the Union List of Authorized Substances of Regulation 10/2011/EC. This certificate takes into account the amendments of Regulation (EC) No 10/2011.

Reaction intermediates, decomposition or reaction products (**NIAS** – non-intentionally added substances) comply with the relevant requirements of the Framework Regulation and the risk assessment in accordance with Article 19 of the Plastics Regulation has been performed.

OVERALL MIGRATION:

According to testing Report – 23/09/2016 – Eurofins (392-2016-00320004):

Test conditions

Simulant	Technique	Area Exposed (dm2)	Volume (simulant) (mL)	Migration conditions
Olive oil	Immersion	0,98	100	10 days at 40° C
3% acetic acid	Immersion	0,98	100	10 days at 40° C
10% ethanol	Immersion	0,98	100	10 days at 40° C

Results

Simulant	Single determinations			Average	OML value
	(mg/dm2)	(mg/dm2)	(mg/dm2)	(mg/dm2)	(mg/dm2)
Olive oil	<2	2,8	2,5	2,4	10
3 % acetic acid	3,4	1,6	1,2	2,1	10
10% ethanol	3,2	2,2	3,4	2,9	10

These results show that the product tested complies with the requirements in EU regulation n° 10/2011 (and amendments)

- to come in contact with all types of food and in the following contact conditions:
- Any long term storage at room t° (up to 40°C)

We inform you that the overall migration result is influenced by the conditions of use e.g. temperature, type of packaged foodstuff (fatty food, aqueous food, thickness).

DUAL USE ADDITIVES:

No dual use additives are used during the production of the APET film.

Absence of Bisphenol A

Absence of Allergens

SPECIFIC MIGRATION: - (File Retal 20191230REV6.0)

Substances restricted by Specific Migration Limits (SML) which can be found in APET film

Tested 10 days – 60 °C

CAS No	Substance Name	Limit as per EU 10/2011	Actual test results mg/dm ²	Simulants
100-21-0	Terephthalic acid (TPA)	<7,5mg/kg of food stuff	<0,5	95 % Ethanol 10 % Ethanol 3 % AceticAcid
121-91-5	Isophthalic acid (IPA)	<5,0mg/kg of food stuff	<0,5	95 % Ethanol 10 % Ethanol 3 % AceticAcid
107-21-1	Ethyleneglycol (MEG)	<30mg/kg of food stuff	< 3,0	95 % Ethanol 10 % Ethanol 3 % AceticAcid
0111-46-6	Diethyleneglycol (DEG)	<30mg/kg of food stuff	<3,0	95 % Ethanol
			3,63 ± 1,8	10 % Ethanol
			5, 94 ± 1,8	3 % AceticAcid

The tests comply with regulation 10/2011 requirements

Metals listed in point 1. of Annex II to the Plastics Regulation cannot be released above the limit specified :

Metals	Test Method/report	SML (mg/kg food)	Migration Result into 3% acetic acid (mg/kg) (10 days-60 °C)
Cobalt	PB-204/ICP ed IV of 15.09.2017 Report No 296671/18/FCME	0,05	< 0,005
Barium		1	0,007
Lithium		0,6	< 0,005
Zinc		5	0,036
Iron		48	0,011
Manganese		0,6	<0,005
Copper		5	<0,005
Nickel		0,02	<0,005
Aluminium		1	0,051

The tests comply with regulation 10/2011 requirements

Primary aromatic amines (**PAA**), excluding those appearing in Union List, shall not be released in a detectable quantity into food or food simulant.

The **heavy metals** (mercury, chromium, lead and cadmium) concentrations do not exceed 100ppm limit according to Directive 94/62/EB

The packaging has to be controlled by the end user of this products, following the specific end-use conditions of use as described in Regulation (EU) 10/2011.

This declaration will be renewed when substantial changes in legislation or substances occur, according to this declaration of compliance.

For further information, please contact Avamoplast.

TEMPERATURES

Minimum	- 20° C
Maximum	+65° C

Suitable for long term storage at room temperature or below

Our goods should be stored:

- In a moisture free hall at normal temperatures
- In the original and closed packaging

PACKAGING

Box	1000 pc
Boxes/pallet	64 x 1000 pc
Weight/box	1,7 kg
Weight/pallet	108,8 kg (excl pallet)
Dimensions box	400 x 300 x 250 mm
Dimensions plastic bag	700 x 400 x 145 mm

QUALITY CONTROL - TRACEABILITY

All articles are daily checked by quality control. Avamoplast is certified by BRCGS Packaging Materials since 2006. Declaration of compliance is available on demand (N° AVA-006). Each label is provided with a batch number and a serial number. Each box has a label in the right upper corner. We need this information for traceability request. We guarantee traceability info for 5 years.

COLORS – DECORATION - MATERIAL

- Lids are standard available in APET clear. Other colors available on demand.

RECYCLING INFORMATION

- APET: 100 % recyclable
- Contains until 50 % recycled material

This information is based on the current knowledge of Avamoplast NV. The user of this packaging is responsible to test in the conditions of use. Avamoplast can't be held responsible for abuse of her products.
