

Apparatenfabriek Bereila BV Industrieweg 7a 9781 AC Bedum

Declaration of Compliance

For articles intended to come into contact with food (according to regulation 1935/2004/EC)

We hereby declare that our article:

Bereila Bottle and Tube dispensers (including Bicky Bomber system)

and the materials used to manufacture these article(s) comply with the regulation 1935/2004/EC in valid version at the time of the distribution of this declaration and corresponds as well to the regulation over good manufacturing practice for materials and articles intended to come into contact with food (GMP) 2023/2006/EC. Please note that as our products do not contain postconsumer recycled plastics, statements of compliance with Regulation 282/2008/EC are not required.

Specifications to the intended use or restrictions:

1. Type or types of food, which are intended to come into repeated contact with the product:

Fatty, acidic, aqueous and/or sweetened products at ambient temperature

2. Type or types of food, which are not intended to come into contact with the product:

Hot products (above 40°C).

No "plastic functional barrier" is used. Substances also authorized as direct food additives ("Dual use additives") are either not used for the manufacturing of this product, kind of not migrating, or only present in quantities that in case of their migration don't allow relevant contribution to exceed of the limits as set in the applicable food legislation.

The user himself has to assure the suitability of the product regarding the intended filling goods and the operating conditions, since these can deviate from the standardized conditions in the directives and regulations. The responsibility regarding the suitability of the product(s) for the intended use and the preservation of migration values under condition of use remains at the user!

This declaration is valid up to revocation and replaces all previous declarations for this article which are not valid anymore.

Martin Poelhorst, Managing Director
